

The Eighteenth Session of the Scientific Advisory Committee  
on the Acid Deposition Monitoring Network in East Asia  
9-11 October 2018, Hanoi, Viet Nam

## **Progress of Preparation of the Clean Air Technology Workshop**

**Network Center for EANET**

### **1. Objectives**

The objectives of this workshop are to introduce the clean air technologies and consider the application of them to improve the atmospheric environment in the region. It is expected that these technologies will be used in countries in appropriate manner. Expected participants to the workshop are officers in charge of air quality management and related technology.

### **2. Organizer**

The workshop is organized by Asia Center for Air Pollution Research (ACAP), collaborated with Environment Research Institute, Shandong University, Atmospheric Environment Branch of China Society for Environmental Sciences (CSES), and Qingdao Association for Science and Technology. This workshop will be held with the Additional Budget of the NC which is funded by the Ministry of the Environment, Japan (MOEJ), according to the Medium Term Plan for the EANET (2016-2020) approved at the Seventeenth Session of the Intergovernmental Meeting on the EANET (IG17) in November 2015 in Bangkok, Thailand and the “Work Program and Budget of the EANET in 2018” approved at the Eighteenth Session of the Intergovernmental Meeting on the EANET (IG18) in November 2016 in Bangkok, Thailand.

### **3. Date and venue**

Date: 4 -5 November, 2018

Venue: Crowne Plaza Qingdao Ocean Spring Resort in Qingdao, China

### **4. Participants**

Two participants from participating countries of EANET are invited, and several experts will also be invited to make presentations. The workshop is open to public.

### **5. Outline**

3 (Saturday), November

Arrival (participation in the International Session of Atmospheric Environment  
Conference of China)

4 (Sunday), Day 1

Opening Session

Session 1: Current situation, challenges and technological needs

Presentations by EANET countries

Session 2: Introduction of technology

Presentations by industries

5 (Monday), Day 2

Session 3: International cooperation on technology

Presentations by experts

Discussion (Approval of meeting summary)

Closing Session

Excursion

**6. Others**

The workshop is held as an international session of the Chinese Atmospheric Science Committee meeting to be held on 3-4 November. It is suggested by CSES that the participants of Clean Air Technology Workshop are welcome to the International session of the Chinese Atmospheric Science Committee to be held in the afternoon of 3 November.
