

The Tenth Scientific Advisory Committee Meeting
of the Acid Deposition Monitoring Network in East Asia
13 – 15 October 2010, Pattaya, Thailand

Data Report 2009 (draft)

I. INTRODUCTION

1. Monitoring activities started during the preparatory phase activities of EANET from March 1998 to December 2000. Regular monitoring of acid deposition started from January 2001 with the participation of 10 countries.
2. Thirteen EANET countries, namely, China, Japan, Mongolia, Republic of Korea and Russian Federation of the North-East Asian region, and Cambodia, Indonesia, Malaysia, Myanmar, Lao PDR, Philippines, Thailand and Vietnam participated in monitoring of acid deposition in 2009.
3. Acid deposition monitoring of EANET covers four environmental items – wet deposition, dry deposition (air concentration), soil and vegetation, and inland aquatic environment.

II. PREPARATION OF DATA REPORT 2009 (PRELIMINARY DRAFT)

4. Participating countries are required to submit the data and related information obtained from the monitoring activities conducted at the EANET sites in their respective countries to the Network Center of EANET (NC) by the end of June of each calendar year based on the guidelines of EANET.
5. The NC had prepared a preliminary draft Data Report 2009 after compiling the monitoring data which were submitted by the participating countries.
6. The contents of this report will be considered by the Tenth Session of Scientific Advisory Committee (SAC10), held in October 2010 by the experts from participating countries.
7. Following the comments and guidance at SAC10, NC will elaborate and finalize the data report 2009.
