

The Eleventh Senior Technical Managers' Meeting  
of the Acid Deposition Monitoring Network in East Asia  
2-3 September 2010, Niigata, Japan

### **Annotated Agenda**

1. Opening of the meeting

The meeting will be opened by the Secretariat and the Network Center (NC) for EANET.

2. Election of the officers

The meeting will be invited to elect the officers of the meeting.

3. Adoption of the agenda

The meeting will be invited to consider and adopt the agenda of the meeting as well as the draft program.

4. Report on progress of EANET since STM10

The Secretariat and the NC will report the EANET activities since the Tenth Senior Technical Managers' Meeting (STM10) held on 26-28 August 2009, Pathumthani, Thailand from scientific and technical viewpoints. The report includes the outcomes of the Ninth Session of the Scientific Advisory Committee (SAC9) held on 14-16 October 2009, Tsukuba, Japan, and the Eleventh Session of the Intergovernmental Meeting (IG11) held on 19-20 November 2009, Bangkok, Thailand. The meeting will be invited to review and comment on this document.

5. Consideration of the National Monitoring Plans (NMPs) of the participating countries

Participating countries will make presentations on their National Monitoring Plans (NMPs) including progress, problems encountered in implementing the monitoring activities and acid deposition mitigation measures in their countries. The meeting will be invited to review the NMPs and activities implemented by the participating countries. The NC will present a summary of the network monitoring activities based on the presentations and discussions.

6. Overview of the preliminary draft Data Report 2009

The NC will present the overview of the preliminary draft Data Report 2009 of EANET based on the data and related information submitted by the participating countries. The meeting will be invited to consider the document and provide comments.

7. Consideration of preliminary draft Report on the Inter-laboratory Comparison Projects in 2009

The NC will present the preliminary draft Report on the Inter-laboratory Comparison Projects in 2009 based on the results submitted by the participating countries. The NC will also explain some issues

related to data reporting for the monitoring and the report on the Inter-laboratory Comparison Project. The meeting will be invited to consider the document and provide comments.

8. Progress report on technical activities of EANET

The NC will present the status of the activities being conducted by the expert groups of SAC. The presentations will include a progress report on revision of the technical manual on wet deposition monitoring and the technical manual on inland aquatic environment monitoring, development of the technical manual on dry deposition flux estimation. The NC will also introduce establishment of the Expert Group on Preparation of the Technical Manual for Air Concentration Monitoring and technical discussion on soil, vegetation and related ecosystem monitoring. The meeting will be invited to comment and provide suggestions on the activities.

9. Progress of the Second Periodic Report on the State of Acid Deposition in East Asia (PRSAD2)

The NC will present the progress of the Second Periodic Report on the State of Acid Deposition in East Asia (PRSAD2). The meeting will be invited to review and comment on this document.

10. Other Issues

The participant of Japan will introduce the calibration of the automatic ozone monitor in Japan. And Japanese expert will present an application of Positive Matrix Factorization (PMF) to EANET datasets. In addition, the meeting will discuss and consider other issues or general questions to be raised by the participants, the Secretariat and/or the NC.

11. Closing of the meeting

The meeting will be closed by the Chairperson.
