

The Second Session of the Working Group
on Future Development of EANET
20-21 June 2005, Bangkok, Thailand

**Arrangements for the Fifth Session of the Scientific Advisory Committee
and the Seventh Session of the Intergovernmental Meeting**

1. At the Sixth Session of the Intergovernmental Meeting (IG6) on Acid Deposition Monitoring Network in East Asia (EANET), it was mentioned in the Work Program and Budget in 2005 for EANET that the Seventh Session of the Intergovernmental (IG7) would be held in autumn 2005. The Fifth Session of the Scientific Advisory Committee (SAC5) would be convened before IG7.
2. During IG6, Japan announced and expressed its preliminary willingness to host SAC5 and IG7.
3. The following will be the proposed agenda for IG7 and might be elaborated by the Secretariat upon consultation with the participating countries:
 - Review and endorsement of the outcomes of SAC5
 - Review of the Report on the Progress of EANET since the Fourth Session of the Scientific Advisory Committee (SAC4) and the Sixth Session of the Intergovernmental Meeting (IG6) and Financial Report in 2004 (including the outcome of the drafting committee for the periodic report)
 - Consideration of the Report on the Feasibility Study on appropriate instrument to provide sound basis for financial contribution
 - Consideration of the Report on the 5-Year Medium Term Plan for EANET
 - Consideration of the Report for Policy Makers
 - Consideration of the Work Program and Budget in 2006 for EANET
 - Consideration of the Guidelines on Administration and Financial Management for the Secretariat and the Network Center (NC) including Procedures and Guidelines for Financial Contribution on EANET
 - Consideration of the Report on the Review of Performance of the Secretariat and NC
 - Any other issues raised by the participating countries, NC, etc.
4. There are proposed agenda items for SAC5 as follows, which might be elaborated later by the Secretariat and NC in communication with the participating countries:
 - Review of the Report on the Progress of EANET since SAC4/IG6 from scientific and technical viewpoints;
 - Review of the Data Report on the acid deposition monitoring in 2004;
 - Review of QA/QC activities in the participating countries;
 - Consideration on the revision of the national monitoring plans;

- Consideration on improvement of the monitoring methodologies;
 - Review of the development of the periodic report on the state of the acid deposition in East Asia;
 - Consideration of research activities on acid deposition including collaboration with initiatives on emission inventory and numerical modeling;
 - Consideration from scientific and technical viewpoints on the Report on the 5-Year Medium Term Plan (MTP5) for EANET and scientific content of the Report for Policy Makers and its fact sheets;
 - Consideration on the Work Program and Budget in 2006 from scientific and technical viewpoints;
 - Update of activities by other international programs on acid deposition; and
 - Any other issues raised by SAC members or the participating countries.
5. The Working Group may wish to consider and elaborate the provisional agenda items of IG7 and those of SAC5 if it would be considered as appropriate.
