PROPOSED NEXT STEPS AFTER THE WORKING GROUP MEETING ON DRAFTING MEDIUM TERM PLAN FOR THE EANET (2021-2025)

I. INTRODUCTION

1. The Proposed Ideas of the Participating Countries for the Next Medium Term Plan (MTP) for the EANET (2021-2025) was submitted to the Twenty-first Session of the Intergovernmental Meeting (IG21) on the Acid Deposition Monitoring Network in East Asia (EANET) by incorporating inputs from the Nineteenth Session of the Scientific Advisory Committee (SAC19) and comments received from the Participating Countries. Taking into account these inputs/comments, the IG21 reviewed the report on the Proposed Ideas of the Participating Countries for the Next MTP (2021-2025), and agreed to establish two working groups in 2020 as follows:
 - The Working Group on Drafting the MTP (2021-2025): to develop two versions of the MTP (2021-2025) by referring to the current scope and possible future scope.
 - The Working Group on Reviewing the Scope of Instrument: to discuss the objectives and scope expansion of the Instrument, and the possibility, options, and consequences of how to address air pollution with a view to it being addressed in the Instrument.
 - The two working groups are encouraged to coordinate their work, as appropriate. The Participating Countries will be invited to attend the working group meetings. The Secretariat informed the Participating Countries that the back to back working group meetings are expected to be held in Bangkok, April 2020, and prepare the documents for the discussion before the working group meetings.
2. Due to unforeseen situation related to COVID19, the meeting could not be held in April 2020 and it was decided to postpone to later dates. In addition, since face to face meeting is not possible, the meeting would be organized through online platform.
3. The Secretariat and the Network Center developed the Proposed Next Steps after the Working Group Meeting on Drafting Medium Term Plan (MTP) for the EANET (2021-2025). The document is available as Attachment.
