

# Considerations on EANET 4<sup>th</sup> Midterm Plans

Republic of the Philippines  
Environmental Management Bureau- Cordillera  
Administrative Region  
July 2020

1

- Support the proposed necessity of expansion of EANET objective
  - Air Pollution needs to be addressed in Urban areas and emerging urban areas specifically the remote site of the EANET. This will be a break through in the twenty years of the existence of EANET.
  - The proposed activities should come hand in hand the technical support in terms of air quality equipment and the repair of equipment for air and dry deposition.
  - Remote areas should be given emphasis. Rural areas are equally important to that of the urban areas.
  - Research areas on the effects of agricultural productivity should be given priority.
  - For the Objective 3 (Promotion of Capacity Building), the sub-activities are only for project fund. Can you include also on the aspect of emission inventories and source apportionment ? Training on personnel?
